A note from Thomo...

Blimey—Where did January go??? January went and the Buffalo Fly came! They have come thick and fast and are causing grief for the cattle. Come and see us for tags, pour-ons, back-rubbers and “fly swats” (you would need a big one!). And with this flush of feed, keep the salt blocks up to the stock, we have good supplies and a good range for all areas. The Summer crops look great—we just need a good finish. We have good stocks of in crop sprays and plenty of solids and liquid fertilisers for all crop requirements. Also watch for heliothis, they are about, not in large numbers, but be vigilant. If concerned please ring and we will have a look.

Service Station

McCulloch has delivered the first of the new range of **ride-on mowers**. The first unit to arrive is the M200-117T—this mower is fitted with a 20 HP V Twin Briggs & Stratton motor and a 46" deck and standard bumper bar. This new model replaces the old 195424 model which was 19.5HP with a 42" deck. The good news is that the new models have not changed in price from the old models—offering great value for money.

At present our most popular push mower is the McCulloch M48—this mower is very well built with cast alloy wheels and large catcher and is selling at a very competitive price. If you are in the market for a new mower please make sure you talk to Mario and the team for a competitive quote. December 2014 winner for the biggest yellow belly competition is Sam McLary with a 50cm fish.
