## CRT—Your local bloke

What have we done to deserve this weather! It is hard to believe that the season could turn so bad, so quickly. It is bad enough with the dry, but the prolonged heat is really a concern. We just have to hope that some storms start rolling in and give us some reprieve.

The **Buffalo Fly** have arrived in the last couple of weeks, so come and see us for tags, pour-ons or spray for your cattle. Get on to them quickly because fly will cost you money. We have started **grading oats seed**, so if you require private grading give us a ring and we will fit you in. We can go bulk, 1t bags or 40kg bags.

We have a good range of **blocks** available for cattle, horses and sheep, whether you have green feed or dry feed. All we want at the moment is **RAIN** and **MORE RAIN!!**
