## Produce News

Well folks, the rain we've all been waiting for has finally arrived! Most of the region received falls of around 30mm, with several reports in excess of 80mm in some areas. The difference the soaking rain has made in the area is wonderful, with all Summer crops planted around Killarney looking healthier than ever after enduring one of the hottest and driest starts to Summer in recent years. With moisture comes another window for planting, with many local growers getting a head-start planting some of our many varieties of oats seed available. Please give us a call in the produce or come in and see your local bloke to discuss which variety of Winter cereal suits you best. February/March is also a great time of the year for many pasture varieties, most of which we either have in stock or can source from one of our many seed suppliers. Be sure to book any seed grading that you may need in advance as the grader shed is running at full steam. Let's hope that the rain keeps coming!
