A NOTE FROM YOUR CRT LOCAL BLOKE

G'Day troops. Well Summer has been and gone, but as we all know March can still be very hot. The crops look good, the grass country has responded well to the rain and gives us a good outlook going into Winter. The oats plant is here again, we have good stocks of oats seed on hand, plus forage barley. For the cropping guys, keep an eye out for Heliothis, Coopers and Vege Bugs. If you are concerned give us a ring and we will come and have a look for you. March is drench time and still keep a look out for Buffalo Fly—they are still about in droves.
