## **Produce News**

Well Winter is here and it has certainly arrived with some cold mornings—and they say we will get plenty more! To get the most out of your grass country and winter feed come in and see us for a full range of salt blocks. We have mineral blocks, molasses based dry feed blocks, plus supplement blocks for stock on grain feed (eg oats, rye and barley). The stock will soon tell you what they require when you put out a couple of different blocks. Keep an eye out for lice, they are just starting to show up with this cooler weather. We have a good range of sprays, pour-ons or injectables to sort them out.

We have a good supply of oats, barley and wheat seed on hand. If you require some of your own seed graded please call us and we will fit you in. Chick-pea seed is starting to get a bit short, so if you require seed please call and we will hold seed for you. Keep up the good work and send us an inch of rain!
