Produce

The weather has certainly not improved, and isn't looking to do so in the near future. We can only hope for a change after the shortest day. We all know that it is getting late, but we will have good stocks of barley, wheat and oats seed. We may have to plant right to the end of July, early August.

We have good stocks of blocks, liquid supplement and dry licks on hand. We can make a dry lick to suit your needs. Cottonseed is available in bulk and bulk bags, also cottonseed meal is on hand ready to go. All commodities are going to be hard to get in late winter.

A great range of panels, gate in frames, head bails, cattle crushes and other gear is in store now. Come and have a look at what we've got. We also have a supplier of iron bark split posts and will have good stocks by mid-June.
