Produce

We are finally getting some Winter, hopefully it will help bring the moisture down in the sorghum and corn.

It has been shocking weather for harvest, hopefully we have turned the corner. Commodity prices are still staying firm and look like holding firm in the near future.

We still have good stocks of seed oats, barley and wheat available, plus good lines of pasture seed and Lucerne.

Keep an eye on your cattle, ticks are still bad and lice have really come in thick the last couple of weeks. We have good stocks of tags, pour-ons and injectables.

Also there is a broad range of lick blocks to choose from, with sizes from 17kg up to 100kg and we have plenty of cottonseed and cottonseed meal on hand both in bulk and in bags.
