PRODUCE

August is here already! For the oats, barley and wheat growers, keep an eye on broad-leaf weeds in crop. We have good stocks of Starane, M.C.P.A. Tordon and 24D. At this stage, there is no Blotch visible, but we will keep an eye out for any fungus—the weather we are getting is helping with disease. For Summer Crop pre-plant of Urea good stocks are available and the price is stable.

Also if you are chasing early G/S Sunny Seed please place an order so we can keep your seed aside.

For the cattle clients, the lice are still bad so come and see us for a treatment. Stocks of blocks, vaccines and minerals are good.

Spring will be here before we know it, so for the Pasture clients, come and see us for a mix that will suit your country and requirements. We can mix any amounts either into bags or in bulk. Plus—we need another inch of RAIN!!!

SERVICE STATION

With Spring just around the corner we can look forward to the grass making a comeback and the re-commencement of our mowing ritual. Make sure you check out our range of mowers, which has increased considerably with the Husqvarna brand now available. As well as mowers we have a good selection of line trimmers, brush cutters, blowers and hedge trimmers. If your mower requires a service we offer fast turn around service at competitive prices. As part of our service we provide pick up and delivery—you can't get much better than that!

New additions to our accessories range is a rechargeable multi-head LED light kit, complete with both desktop and cigarette lighter chargers. This is a very impressive kit, check out our limited stock at the discounted introductory price.

For the fisho enthusiasts don't forget that Cod season closes from 1st September to 30th November.
