CRT Rural Merchandise

Well we've had a little bit of rain, with hopefully more to come. This will give us some hope for planting Summer crop. We have good supplies of millets, forage and grain sorghum, maize, lab lab and pasture seeds. Chemical and fertiliser stocks are all good, and the grain prices are looking good for the upcoming season—not just coarse grains but pulses as well. Give us a call regarding varieties and what stock you will need. We know one thing—there will be some weeds come now with the moisture and heat!

The cattle market has eased back a bit, with that hard month of September but with good rain across the region prices could jump again. There is still a lot of lice about, and with a change in the weather the buffalo fly will arrive. We have plenty of pour-ons, injectables and tags on hand ready to go. "Bring on the rain!!"
